

Marupa Wood Baseboard: The Detail That Transforms Your Interiors

A Finish That Makes the Difference in Your Interior Trim

In the world of design and interior wood finishes, there are details that often go unnoticed... until they are missing. The baseboard (also known as skirting board) is one of them. It not only protects the bottom of the wall from scuffs and moisture, but also provides an aesthetic line that unifies the design of the entire space. Especially when choosing a wooden baseboard, this element adds the natural warmth that plastic versions can hardly imitate.

At Pacific Forest we know this well. That is why we have chosen to work with Marupa wood for our baseboards, an imported species native to Peru—lightweight, stable, and light-toned with no knots—perfect for creating elegant and welcoming environments in any interior design project.

“Marupa is a wood that does not compete with the design, it enhances it. It is lightweight, easy to work with, and adapts to any style.” – Technical Team at Pacific Forest.

[Technical Features of the Marupa Baseboard](#)

Marupa wood baseboards ready for dispatch, showing their light tone, smooth grain, and homogeneous, knot-free surface.

Below, we present the technical specifications of this Marupa wood baseboard, which reflect its high quality and performance:

Specification	Detail
Origin	Peru (FAS – First and Seconds)
Available lengths	2.1 m and 2.4 m
Dimensions	70 mm width × 12 mm thickness
Basic density	360 kg/m ³ (lightweight wood)
Drying	Kiln-dried to 12% moisture
Surface	Light, knot-free
Stability	T/R ratio: 2.40
Launch price	\$3,100 + VAT (2.4 m) / \$2,700 + VAT (2.1 m)

Advantages That Make It Unique

- **Premium finish:** light, homogeneous tone, knot-free.
- **Dimensional stability:** reduced risk of warping thanks to controlled kiln drying.
- **Versatility:** ideal for modern, minimalist, Scandinavian, or classic styles.
- **Competitive price:** superior aesthetic and technical option compared to PVC or EPS.
- **Sustainability:** complies with origin certification, FSC certification, and phytosanitary requirements.

Comparison: Marupa vs PVC vs EPS (Plumavit)

How does the Marupa wood baseboard compare to the most common alternatives in PVC or EPS (expanded polystyrene, commercially known as Plumavit)? The following table summarizes the main differences in dimensions, performance, and approximate cost of each option:

Material	Available length	Dimensions / thickness	Resistance & moisture	Aesthetics & quality	Approx. price per unit	Source / Purchase link
Marupa Baseboard	2.4 m and 2.1 m	70 mm × 12 mm, FAS, 12% kiln-dry	Stable (T/R 2.40)	Light tone, knot-free, natural	\$3,100 + VAT (2.4 m) / \$2,700 + VAT (2.1 m)	Pacific Forest
PVC Hoga Baseboard	2.0 m – 2.44 m	~80–90 mm × 15 mm	Waterproof, highly resistant	Wood imitation or paintable white	~\$2,740 (white 2.44 m) / \$7,490 (bamboo 2 m)	Construmart
EPS Extra Line Baseboard	2.4 m	Up to 100 mm × ~15 mm	Water-resistant, lightweight	Matte white, paintable, decorative	~\$13,900–17,600 VAT incl.	–

Recommended Applications

Marupa wood baseboards are ideal for a variety of interior design and remodeling projects. Some recommended applications include:

- Apartments and houses with a modern or minimalist style, where a clean and bright trim line is desired.
- Offices and corporate spaces, adding a quality detail that elevates the perception of the space without overloading it.
- Hotels, hostels, and hospitality projects, delivering a cozy feel and premium finish in hallways and rooms.
- Interior renovations and extensions, where the goal is to replace old MDF or polystyrene baseboards with a durable and aesthetic natural wood solution.

Frequently Asked Questions (FAQ)

Is Marupa baseboard moisture-resistant?

While it maintains dimensional stability in dry interiors, it is important to protect it in humid environments. Not recommended for exteriors or areas with high direct humidity.

Can it be painted or varnished?

Yes, its light and smooth surface is perfect for finishes.

Do you ship throughout Chile?

Yes, from our warehouses we deliver to all regions.
